WASHINGTON, Jan. 16. GEORGIA TO THE FRONT.

GEORGIA TO THE FRONT.

The admission of four out of seven representatives from Georgia to-day brings the political affairs of that State to the front again. Various Senators elect are here waiting the slow movement of the Senate Judiciary Committee. There appears to be a probability of two contests before the next House, The certificate has not been issued for the Fifth or Augusta district. Dr. Tift is the Democratic claimant and Maj. Whilely the Republican. The latter also aspires as Senator elect to a seat in that chamber until the 4th of March next. Both gentlemen are the candidates of their respective parties for the present and next Congress. The Governor has not yet decided to issue a certificate, and will, it is believed, set the election saide as yold. In one county the ballot boxes were destroyed by a mob, and in another the judges were forced to sign a false return at the peril of their, lives. In all probability a new election will be ordered by the Governor. Whitely claims that but for the violence indicate his majority would be more than 2,000. NEW YORK, January 17.

There is scarcely a doubt that the Nathan murderer will soon be arrested. Judge Cordozo, in an interview with the reporters, tells the startling story that Col. Whitely, chief, of the United States secret service, openly deplares that the murderer is known to the detectives, and will be brought to justice at an early day, in fact he has no way of escape but self-destruction. Supt. Kelso, by an evasive reply given to a reporter, threw strong grounds for belief in the actual existence of such a state of things, and putting all the facts together, and taking into consideration the history and clues in the case, a complete chain of circumstances pointing as the fact that the murdeter is known, and his whereabouts discovered, has been

Mr. Monean, of Ohio, member of the Military Committee, has proparged a, bill which the committee has been authorized to report, repealing the provisions of the sixth section of the act of 1488, which limits an application for a pension within five years from the time of the wounds, death, or any other cause. It appears that in many cases persons entitled to pensions, have falled to "receive them by reason of their ignorance of the above limitation.
